

## UKNA RSC Motion Form Draft 21/01/2022

|   |   |
|---|---|
|    | <p><b>Motion:</b>To direct the World Board to amend the The Guide to World Services in NA: Approval Process for Recovery Literature, Specifically Sub Section B, Approval-form Literature, to increase the minimum time for new 'Book' length pieces of NA literature. from 150 days to 1 full conference cycle or two years (Whichever is closest)</p> |
| <p><b>Why is the motion necessary?</b> The same time period of 150 days is currently applied to all NA literature regardless of its size or content. For example, the fellowship is given the same time period to assess, review and approve an IP of 2 pages as that of much longer pieces, such as the SPAD. It is this disparity which this motion hopes to address.</p> |   |
| <p><b>What are the specific objectives of the proposal?</b> To separate shorter lengths of NA Approval Form literature, such as IPs, from the longer pieces, thus allowing the fellowship more time to be thorough in its decision making process prior to their final approval.</p>  |   |
| <p><b>What human and financial resources are required?</b> If this motion is adopted by the UKNA Region for inclusion in the CAR for 2023 the RD team would need to liaise with the World Board to ensure its CAR readiness.</p>  |   |
| <p><i>Proposer (Name, service position/ASC)</i></p>   | <p><b>Highlands &amp; Islands Groups of NA ASC</b></p>  |
| <p><i>Seconded by (RCM) Name + ASC:</i></p>   |   |
| <p><i>Date and location of Region meeting</i></p>   |   |

|   |  |
|---|--|
| <p><i>Number of RCMs present:</i><br/><i>Quorum 11</i></p>  | <p><i>Consensus reached?</i></p>                   |
| <p><i>Region date from which policy will be active:</i></p> | <p><i>If temporary, date of re-evaluation:</i></p> |
