For clarity the input and review for the SPAD project has been ongoing since it was finally adopted in 2018 and has been the subject of numerous review and input drafts being released over that time.

Motion 4 is explicitly asking the fellowship to approve the final draft prior to it being printed and placed in the NAWS inventory of available approved NA literature.

A WSC Consensus vote of YES would trigger the final production, printing and distribution of the SPAD.

A WSC Consensus vote of No would stop the final production, printing and distribution of the SPAD and likely trigger a number of possible alternatives or amendments from the floor of the WSC, possibly in the form of new motions, which the RD’s would likely be asked to vote on in the absence of Regional Group consciences being consulted.
